About DAV

We aim to educate students to become outstanding contributor to society. Our value based education teaches our students to celebrate diversity in a spirit of tolerance and understanding something which the modern world is desperate for. We offer a stimulating learning environment with a variety of features and facilities.

VISION

Our vision is to be a premier global educational institution which develops the human resources for a dynamic and expanding community, the state, the nation, the religion and the world at large.

MISSION

Our solo motto is to provide value based quality education where students, staff & parents feel deeply involved and respected. We aim to provide an education which inspires creativity, nurtures gospel values, cultivates academic growth in a cordial, congenial and safe environment, so that our students may achieve the common core standard at all grade levels.

Principal's Message

Dear Parents,

At the very outset, I would like to express my deep gratitude to you for reposing your trust in the DAV Management. I assure you that we shall have no stone unturned to shape the integral personality of your wards by providing quality education to them.

At the same time, they will get exposed to conducive and vibrant environment in the school in which their inherent capability and potential will come to the fore. I strongly believe that there is a brilliant student locked inside every child. The school provides ample opportunities to each child to participate in games, sports and co-curricular activities which play an instrumental role to develop all-round personality of the child.

There can be no two opinions about the fact that education is panacea to all evils in the society. In order to fight and eradicate the evils which are eating to the vitals and Indian Society, education is the best weapon in our hands. It is for this reason that excellence in education is the mission of DAV and to fulfil this commitment, both the Teachers and the Parents have to join hands together. Our students cannot achieve excellence in academics unless we get support of the parents. It would not be out of place to mention that out of 24 hours, students spend only 6 hours in the campus of the school and the rest 18 hours they have to spend at home. This is the reason that monitoring of the activities of the children at home determines their success.

I would like to recall Mahatma Gandhi when he said, "Man is known by his company". So, the parents are requested to see that their children must join good company. If they join bad company or remain surrounded by friends who have deviated from the right path and cultivated bad habits, it will certainly have negative impact on the personality of the child.

As such, the task of the making of the man becomes difficult for the school. Moreover, the young learners must be taught about the dire consequence of misusing technology because internet, smart phones, social media etc. are major hindrance in the path of the progress of the child.

All of us know it very well that rose is the most beautiful flower in the world, but it is a bitter truth that the rose blooms on thorns and thorns are symbol of pain and struggle. Therefore, the young learners should not succumb to any kind of pressure in the face of adverse situation. Positive thinking, hard work and indomitable courage will help them to reach their destination and achieve the goal in life. I am pretty sure that the outstanding achievements of your wards will make us proud and under the care and guidance of trained and dedicated team of teachers of DAV Centenary Public School, Rohtak, our students will be at the helm of affairs in different fields in the ensuing days. Simultaneously, after passing out from the portal of the school, they will be knowledgeable, responsible and ideal citizens of the country.

I have every reason to believe that they will contribute a good deal to the development of family, society and nation as well.

"The quality of Nation is determined by the quality of Education in the Country"

SHAKER LAL
PRINCIPAL

A Gateway to Playway

The Kindergarten of the school is a small heaven illuminated with the radiance and the beauty of the twinkling stars who enter the portals of the institution with dreams in their eyes and wishes in their hearts.

Keeping in view the importance of the most formative years of a child's life the tiny tots are nurtured lovingly in a homely atmosphere away from home. The curriculum is holistic and a true blending of the traditional and the modern.

The kindergarten houses swings, a play field, a computer centre and an activity room.

Sports

The school takes special care of Physical health, games and sports activities by providing the required infrastructural facilities and coaches for athletics, kho-kho, football, basket ball, volley ball, cricket, training of taekwondo, chess and skating rink.

We firmly believe that lessons learnt in the play-field in 'life-skills' such as team work, leadership, fair play & humility, go a long way towards building the kind of citizen that the country so gravely needs. Many sports enthusiasts have excelled at national level and brought laurels to the school.

Shaping the future of Generation Next

Biology as a discipline of Science has pervaded every walk of life. It is an indispensable area of human knowledge for the physical, social & mental well being, scientific & technological growth.

In the Chem. Lab, students enjoy the fun of observation and give them extensive practical experience to supplement the theoretical lessons learnt in the classroom. Experiments done in chemistry lab. help the students to have a deeper insight into the subject.

The students in the Physics Lab. learn to believe in justification by verification. Due to technological advancement during the last decade learning by doing has become an essential part of teaching learning process.

Modern Mathematics is thoughts of an abstract subject, isolated from other subjects with lots of manipulations of symbols without much application in real life. A mathematics lab. alone can remove the math phobia and can create excitement and interest in the learning of mathematics.

I.T. Lab.

Technology runs on parallel lines to achieve an IT edge over rest of the world. The teaching process becomes more effective when the technology is merged with the teaching. Our spacious, air conditioned computer labs. in the school complex with latest technology equipments, 3 big lecture halls with plethora of multimedia projector- each having access to internet take young children to the high tech world.

Intellectual Hub - School Library :

Our well stocked library houses books on diverse subjects, magazines, encyclopedias, specialised publications and good reference books. A complete catalogue is available on computer and daily transaction of books is done with its aid.

School Transport

The school has a fleet of buses, providing comfortable transport to students at doorsteps.

School Uniform

All Girl Students from VI to XII will wear Salwar-Kameez as per prescribed design of DAV CMC, New Delhi

- * Maroon Blazer is compulsory from class 6th onwards.
- * Girl students can wear stockings of shirt colour during winters.

Counselling

Counselling in the school encourages students to make a thorough assessment of their talents and personalities. We aim at preventive rather than a curative approach to counselling. In this respect, the Life Skills Program at school covers various aspects such as decision making and assertiveness training for students of classes VI to XII.

It is conducted by the counsellors and by peer moderators. In addition, Career Counselling Sessions through various seminars and Talk Shows are conducted regularly for students at 10+2 level, thereby enabling students to make informed career choices.

Counselling is provided to parents in order to inform them about the innovative educational programmes and other issues related to their respective wards.

Workshops are organised for professional enrichment of faculty members as well as to sensitize them to various issues pertaining to students such as identification of special children, behavioural concerns etc.

Haryana State Council for Child Welfare, Chandigarh sanctioned State Child Guidance, Counselling and Welfare Clinic for whole Haryana State Pilot Project. Counselling Session on 'Impact of Psychology Counselling in Reducing the Cases of Child Abuse' was conducted by Mr. Anil Malik, State Nodal Officer to educate and counsel the children against sexual assault and child abuse.

Visiting Hours

Saturday Timings 9.00 a.m. to 1.30 p.m.

Timing for Attestation of Documents :

8.00 a.m. to 9.00 a.m.

Bringing Values to Life

Aasto Maa Sadgamaya - Tamso Maa Jyotirgamaya

ॐ असतो मा सद्गमय । तमसो मा ज्योतिर्गमय ।।

O Lord ! Lead us from falsehood to
truth and from darkness to light

The principal objective of our school has always been a synthesis of modern knowledge and technology with ancient heritage and culture.

'Aasto Maa Sadgamaya' symbolizes the divine light that illuminates the path we tread on, dispels the clouds of ignorance and leads us to a new dawn pervaded with the light of knowledge & truth. The vedas signify the ancient principles that are the immortal milestones which guide us in our noble odyssey of spreading the light of knowledge.

The burning flame embodies the quest of the ignited minds for excellence in all spheres and the tender green leaves denote the purity of mind that aspires for peace and harmony.

"Education to be completed must be humane, it must include not only the training of the intellect but also the refinement of the heart and the discipline of the spirit."

Rules & Regulations

It is compulsory for every child to come to school in full school uniform with well polished shoes, nails well filed, clean teeth and hair properly combed.

Students are required to bring school diary, books and note-books to the school according to time table.

Good ornaments, jewellery and costly articles should not be brought to the school.

Any damage done in the class or in the premises will have to be made good by the parents of the child concerned and school property should be preserved with care.

The parents should meet class teachers only on Saturday, or by prior appointment through the Principal to avoid any disturbance during the class hours.
